

Conditions for Free Issue Materials

1. BARTEC may accept to handle and install” Free Issue” materials (hereafter called FIM) for custom orders. Conditions as outlined in this routine will apply for BARTEC’s handling and the FIM.
2. Handling fee for any FIM will be raised through a VOR (Variation Order Request).
3. All FIM material for a given order shall be sent to BARTEC in one shipment. This shipment must be clearly marked with BARTEC order number and contact person at BARTEC. If more than one item in the order requires FIM parts, all individual parts shall be marked with item number (line nos.) relative to the order.
4. Any special requirements for handling, storage and transport must be documented by the Customer, and any special components required for installation of FIM shall be supplied by the Customer.
5. All FIM parts must be made available to BARTEC no later than 3 weeks prior to the confirmed delivery date, as stated in the order confirmation. For large quantities with time consuming assembly work, FIM may be required earlier. In such cases the delivery of FIM will be defined in the quotation from BARTEC.
6. In the event of late arrival of FIM, BARTEC has at originally confirmed delivery date the right to invoice the full contract value, including cost related to start/ stop of production.
7. Late arrival of FIM parts will invalidate the confirmed delivery date, and a new delivery date must be agreed upon.
8. BARTEC shall, however so caused, not be hold responsible for any defects, loss or damages to FIM material or parts. This also includes consequential loss and liability.
9. All FIM material delivered to BARTEC is still considered the property of the Customer and must be kept insured by him. This includes all aspects of the handling, including packaging and transportation.
10. All Exd approved material must be certified and / or in case of material according to the ATEX Directive, conform according to the latest Ex standards.
Material to be accompanied by all relevant data such as EU-Doc, written attestation, user- /instruction manual and relevant Ex-certificates.

Approval for the use of Ex components depends on assessment and approval by BARTEC AS.
