

VOLUMILK

The unique highend measurement solution

The new measurement system by BARTEC ...

The new dipstick measuring system for milk collection from BARTEC VOLUMILK combines unlimited intake speed with maximum accuracy. Due to the innovative dipstick measuring technology, the system has a smaller pipe surface that is wetted, which leads to a significantly lower flushing quantity during a quality change. The shorter suction pipework ensures optimum utilization of the pump vacuum.

...the innovative high-end system.

Main advantages:

- Volumetric accurate level gauge technology
- Unlimited intake speed
- Smallest pipe surface wetting
- Shortest suction pipework
