

PETRO 3003 Chem

The flexible measurement system for DEF, chemical and other fluids

PETRO 3003 Chem

The flexible measurement system for DEF, chemical and other fluids

MID approved measurement system for DEF, chemical and other fluids

Can be combined in one system with PETRO 3003 Tiger for diesel and DEF delivery

Flexible system solution with integrated FTL data communication

Modular system solution from 10 l/min to 1,000 l/min

PETRO 3003 Chem

Measurement system for DEF and diesel

PETRO 3003 Chem

For road fuel tankers with pressure tank or pumped delivery

MID approved measurement system for DEF, chemical and other fluids

Flexible system solution from 10 l/min to 1,000 l/min

For stationary applications in the depot or in the refinery

For rigid tank trucks and delivery to construction sites

A single system in combination with PETRO 3003 Tiger for deliveries of diesel and DEF

Flexible system solution with integrated FTL data communication

Features

- Compact and flexible solution
- A single system for DEF and diesel
- Metrologically approved measurement system
- Time and cost savings
- Fast and simple operation
- Integration in office communication
