

## PETRO 3003 Volutank

Flexible system solutions for transporting diesel, petrol, heating oil and other fluids

## PETRO 3003 Volutank

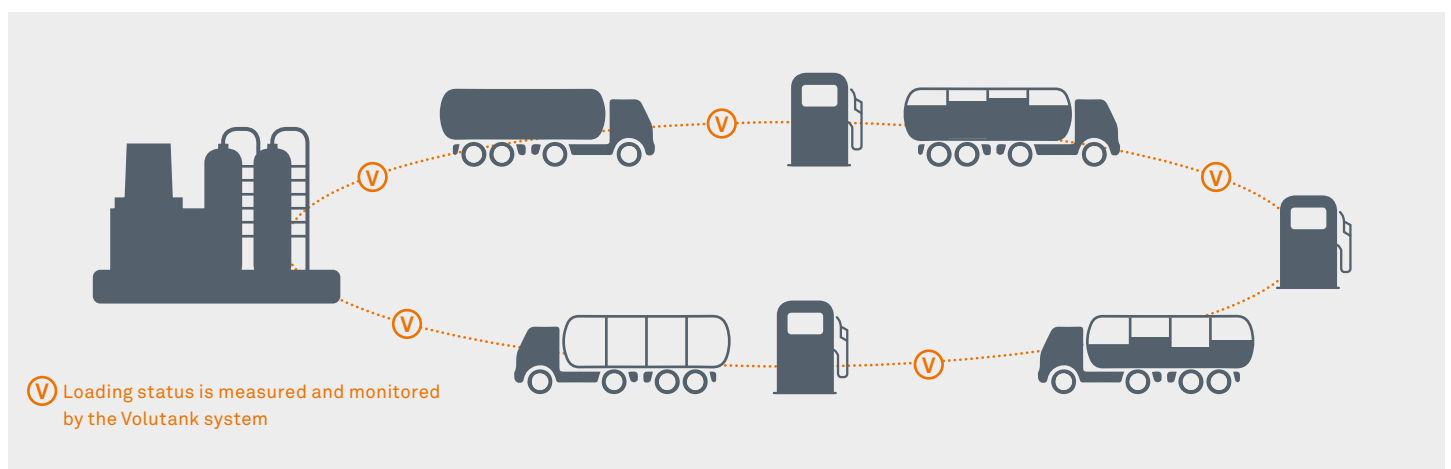

Flexible system solutions for transporting diesel, petrol, heating oil and other fluids

Fully electronic dip stick measurement system for gravity and pumped deliveries of fuel

Modular system solution for semitrailers and rigid drawbar combinations

Flexible system solution with integrated FTL data communication

A single system for the automatic control of loading and delivery

PETRO 3003 Volutank

### PETRO 3003 Volutank

#### Petrol stations and bulk deliveries

Measured gravity deliveries with fully electronic dipstick

#### Combined gravity and pumped deliveries

A single system for gravity and pumped deliveries with wet and empty hose, measured with fully electronic dipstick

#### PETRO 3003 Opticontrol visual assistance system

#### PETRO 3003 Safe quality assurance system

#### PETRO 3003 Spds sealed parcel delivery

#### Monitoring of volumes and FTL data communication

### Features

- One solution and one platform for different applications
- Improved monitoring and volume control
- Metrological approval
- Time and cost savings
- Adapted to your requirements
- Optimised logistics and route planning
- Integration in office communication
